HANDFASTING & WEDDING CEREMONIES

ROOTED IN THE WISDOM
OF LAND, LORE + LOVE

YOUR CEREMONY IS THE HEARTBEAT OF THE DAY

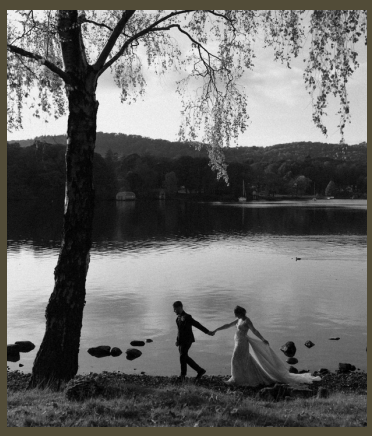

It's not simply something to move through before the celebrations begin. It's a moment that can feel unmistakably yours.

Woven from your story, your values, the people and places you love and the promises you are choosing to make to one another.

Wild or refined. Playful or profound. Tender, unconventional, elemental or deeply ritualistic.

Together, we create a ceremony that is a true expression of you and your unique love

Hello love it's me Hannah Lily.

A wild-hearted soul, here to fan the flames of what matters most to you and give you permission to follow wherever that leads. I am a devoted Ceremonialist and Celebrant, endlessly fascinated by the meeting place of the human heart and the natural world… where love, story, ritual, reverence and earth wisdom weave together.

For over eight years, I have been crafting and holding meaningful ceremonies guiding people through some of life's most meaningful thresholds. I'm devoted to bringing a grounded presence, playfulness, an artistic approach and an intuitive understanding of how to bring your vision to life.

My role is to listen deeply. To understand what matters to you beneath all the noise of what a wedding is supposed to be and bring those threads together into earthly form through storytelling, ritual, symbolism and heartfelt words.

Whether your ceremony is simple and understated or rich with ritual, what matters to me is that it feels true to you.
It would be an honour to stand beside you at this threshold and bring your vision to life.

WHAT IS A HANDFASTING?

Handfasting is an ancient ritual of union, where two people have their hands bound together as they make their promises and commitments to one another. But there is no single way a Handfasting has to look.

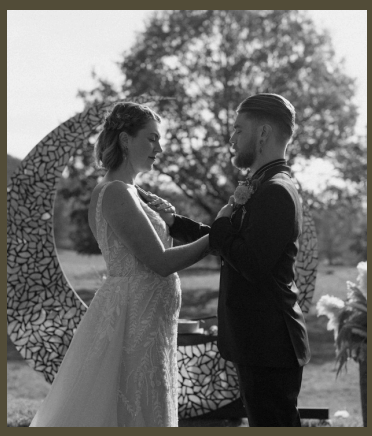

For me, the beauty of this ritual is in how it can be shaped and made your own. Your hands might be bound with cords carrying particular colours, meanings or intentions. We may call upon the elements, honour the land beneath your feet, weave in the people you love or create rituals that speak directly to your story.

It can be simple and intimate, or become the ceremonial thread that weaves through the whole of your wedding ceremony. An ancient ritual, given new life through your own story.

Ceremony Planning Timeline

Creating your ceremony is a journey we take together. There is space for ideas to emerge, change shape and deepen as we get to know one another.

WE MEET

We begin with a connection call… a chance to meet, hear a little of your story and explore what you're dreaming of for your day.

WE DREAM + WEAVE

Around 6–8 months before your wedding, we begin the deeper ceremony planning. Together we explore your story, intentions, vows, rituals and all the threads that will make your ceremony uniquely yours.

WE REFINE

I begin bringing everything together into your ceremony script. We stay connected throughout, shaping and refining until it feels right.

WE GATHER

On the day, I arrive early to prepare the space, connect with those involved and make sure everything is ready… so when the moment comes, you can simply arrive and be in it. From our first conversation to the moment you stand together at the threshold, I'll be there to guide the process.

Symbolic Rituals

Ritual gives us a way to bring meaning into form.
A gesture, an object, an offering, a flame, a shared cup... simple acts can hold enormous meaning when they are chosen with intention.

Together we can explore the rituals and symbolic acts that feel aligned with your story drawing from ancient traditions, the natural world, family and ancestry, or creating something entirely unique to you.

Rose Ceremony • Wine or Water Blending • Unity Candle • Flower Essence • Sacred Smoke Cleansing • Warming the Rings • Tree Planting • Honouring Ancestors • Land Offerings • Fire Ceremony • Sacred Sound • Cake & Mead • Jumping the Besom • Anointing

Anything is possible
